

EQ-i 2.0® / EQ360® PRICE LIST 2023

Emotional Intelligence (EI) is a set of emotional and social skills that influence the way we perceive and express ourselves, develop and maintain social relationships, cope with challenges, and use emotional information in an effective and meaningful way.

EQ-i 2.0®

One of the most robust and well-validated measures of emotional intelligence, the EQ-i 2.0® tool features a Total EI score with 5 composite scores measuring 5 distinct aspects of emotional and social functioning.

15 subscales hone in on EI skills critical to workplace success, and a Well-Being Indicator measures level of happiness, providing additional developmental opportunities.

EQ-i 2.0 WORKPLACE REPORT	£64	73 TOKENS
EQ-i 2.0 LEADERSHIP REPORT	£95	109 TOKENS
EQ-i 2.0 GROUP REPORT	£234	269 TOKENS

Enquire to set up your own MHS portal with PCL to begin your EQ administration today.

The EQ portal works on a token system therefore you must have the corresponding amount of tokens to generate reports. Tokens requested must correspond to a report type unless a shortage has occurred. In this case, tokens can be purchased for £1 per token.

All prices are subject to VAT at the standard rate.
