PSYCHOLOGICAL CONSULTANCY LTD

PCL Business Psychologists (Est. 1993)

23rd year

Innovative

Research oriented

Global influence

Risk Type Research

- Five years of research and development triggered by FSA regulatory requirements
- How individuals differ in risk orientation
- Data from over 8,000 completions of the Risk Type Compass questionnaire

Opportunities and Applications

- Auditor training and accreditation
- Financial advising
- Board development
- Risk management
- Sports psychology
- Heavy industry H&S
- Trader coaching
- Risk culture change

Irrational decision making (Khaneman):

Behavioural economics and human irrationality

Getting to grips with behavioural bias:

The significant reliance on personal judgement at all levels has to be recognised

No Avoiding Personal Judgement

Decision-making draws on both the **analytical** and the **emotional** systems in the brain

We make decisions **instinctively**

“INNOVATION Managing risk, not avoiding it”

Annual Report of the Government Chief Scientific Adviser 2014.

Personality and Behaviour

- Personality can't choreograph behaviour
- It's about dispositions that exert a persistent and pervasive influence
- We each have our own behavioural bias

Critical Personality Dispositions

Emotion:

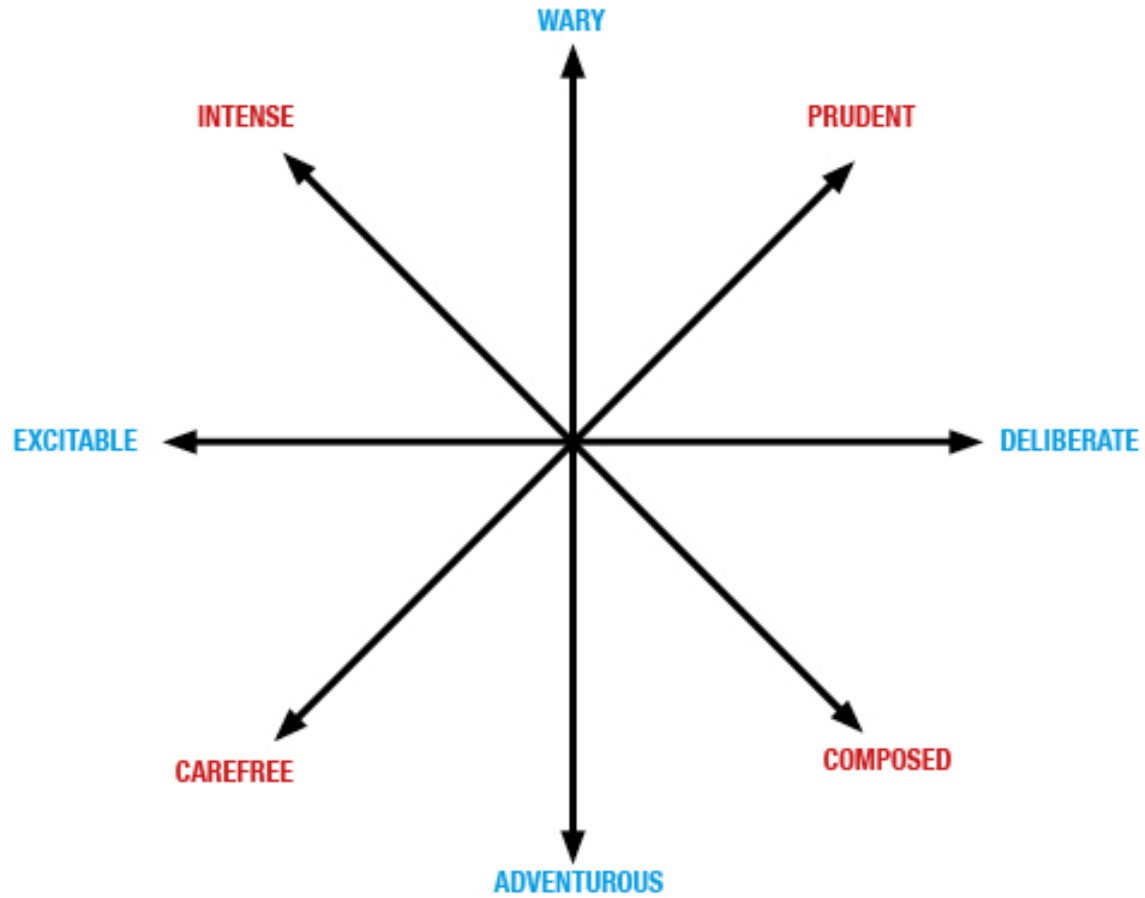

Fearful pessimists.....Calm optimists

Analysis:

Excitement seekers..... Systematic planners
